

Plant Operative/Telehandler

Runcorn

PVCR Ltd are looking to recruit a Plant Operative/Telehandler for our recycling facility in Runcorn. PVC recycling is a convenient, economical and socially responsible way of protecting our environment. As a subsidiary of REHAU Group UK, PVCR is focused on growing the circular economy and we see innovation within PVC recycling as pivotal to our global sustainability strategy. By recycling post-consumer PVC windows and doors, PVCR minimises waste costs whilst realising the future value of recycled PVC and reducing the impact on landfill.

Your role:

Material Handling: You will be responsible for a range of material handling tasks, including loading and unloading materials using a Fork Lift Truck (FLT).

Bulk Handling: Perform bulk handling tasks using a JCB, such as bucket work and operation of screeners/shredders, to ensure efficient processing of recycled materials.

Machine Operation: Operate machinery to oversee the recycling process, ensuring smooth operations and maintaining high-quality output.

Safety and Housekeeping: Maintain general housekeeping and ensure a safe working environment, adhering strictly to all Environmental, Health, and Safety policies, procedures, and regulations. Prioritising and promoting safety in all aspects of work.

Site Operations: Operate the site and production processes safely and efficiently, contributing to our commitment to sustainability and responsible waste management.

Team Support: Assist with other duties as needed, collaborating with colleagues to achieve production targets and maintain a high standard of work.

Your profile:

Licenses: Must have Fork Lift and Telehandler License. Holding a JCB handling license is highly desirable.

Experience: Proficient in bulk handling techniques, with previous experience in a manufacturing or recycling environment preferred.

Adaptability: Able to thrive in a fast-paced environment, managing multiple projects within set timeframes while maintaining attention to detail and quality.

Communication: Strong interpersonal skills, able to interact effectively and professionally with colleagues with minimal supervision.

Flexibility: Flexibility with work schedules and ability to work all shift patterns to support production demands and operational requirements.
